Product data sheet

Automation technology - sensors and actuators

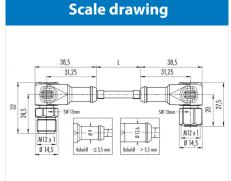

Product description M12-A connecting cord for food and beverage industry, Contacts: 3, not shielded, moulded on cable, IP69K, Ecolab, FDA

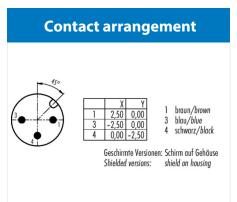

compliant, M12x1, Standard cable, PP grey, 3 x 0.34 mm²

Area M12-A series 763

Order number 77 3734 3727 40403-0200

Technical data

General values

Connector design

Connector locking system

Termination
Wire gauge (mm)

Wire gauge (AWG)

Upper limit temperature

Lower limit temperature Customs tariff number connecting cord for food and beverage industry

screw

moulded on cable 0.34 mm²

Security notices

The connector must not be connected or separated under load. Non-observance and incorrect use can result in personal injury.

The connectors are designed for use in plant, control system and electrical equipment. The end user is responsible for checking whether the connectors are suitable for use in other applications.

Connectors used in electrical circuits containing hazardous life parts must only be assembled and used by or under the supervision of persons with the requisite electrotechnical training, taking the applicable regulations and standards into account.

Connectors with degree of protection IP 67 and IP 68 are not suitable for use under water. When used outdoors, the connectors must be separately protected against corrosion. For further information about IP degrees of protection refer to 'Technical support' in the Download Centre.

To lock the cable connector to the equipment connector, the threaded ring is tightened until it is 'finger-tight' (approx. 50 cNm).
