

DIN CONNECTOR

Board-to-board connectors

Multicircuit and self-supporting style board-to-board connector

Features

- **Conforms to DIN standards**

- **Secure locking mechanism**

This mechanism securely holds housings and improves resistance to vibration and shock of PC board. The friction lock connector is also available.

- **Secure locking on PC board**

The DIN connector has hook pins that allows it to be temporarily mounted on the PC board. This prevents connector from lifting or changing position while it is being mounted.
